

Homestuck Kid Emblems

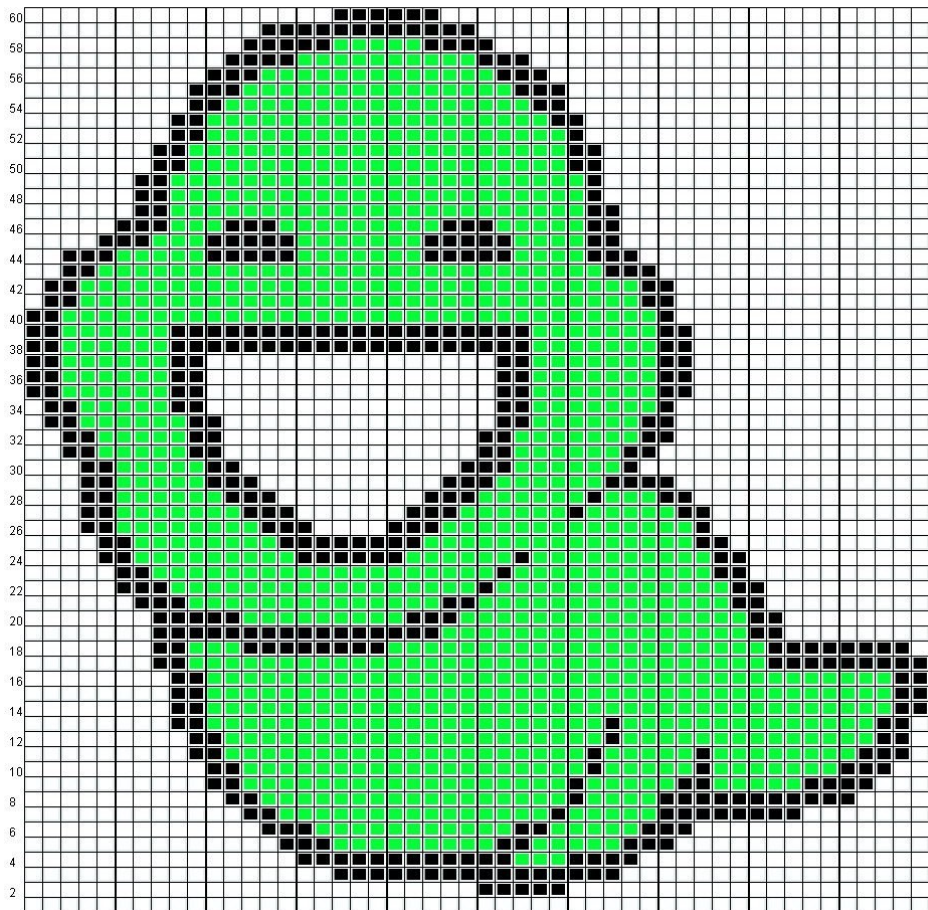

By S. Ann Ran

4 in x 4 in gauge: 20 sts by 24 rows on #9s

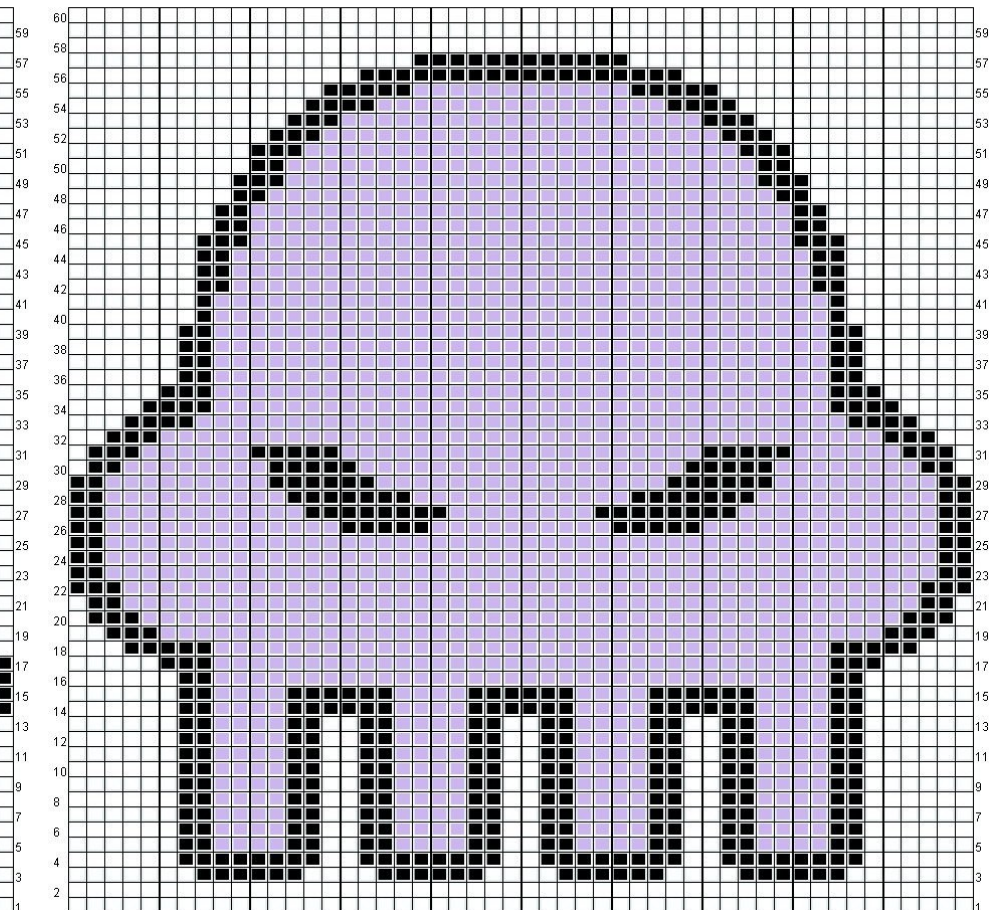

The beta and alpha kid emblems as created by Andrew Hussie for Homestuck; charted to the same scale as the previous zodiac and god tier signs. All charts are 50 sts by 60 rows and the image is centered on that chart; the idea was that all the charts would be needed, and to have them in relation to each other. The majority of the images used to create the charts came from the Homestuck Wiki; the rest came from Homestuck Resources

(<http://homestuckresources.tumblr.com/>).

As both emblems show up in different places at different times, and some fans prefer one to the other, both were charted. The one on the left is the “official” one (the one on the pin, anyway).

There was still some indecision of what was actually Jade's emblem when I first started charting them; the dog is official one (as evidenced by the official pins), but some people may prefer the atom one.
